FS. I. Fittings & Sanitary Wares

01. Fittings

AER mixer faucet is made of finest quality of brass material to provide maximum longevity. With at least 59% of brass, 0.15 – 0.35 μm of chrome plating, and 8 – 12 μm of nickel coating, we ensure AER mixer faucet delivers the water clarity from source. Therefore, our product has passed the 200 hours of salt spray test to prove maximum corrosion resistance.
Lead Time Production: 12 – 16 weeks

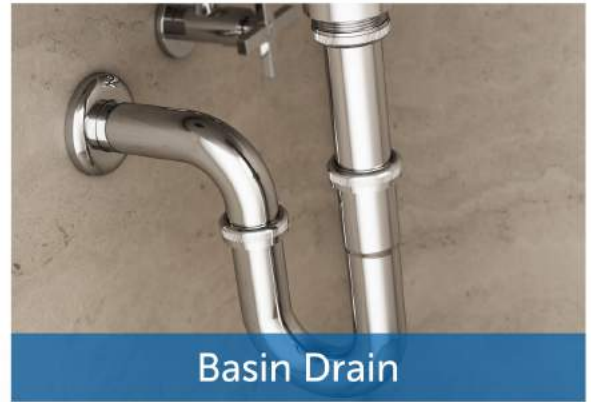

02. Showers

AER provides various types and models of showers that suit for your needs including wall shower, ceiling shower, hand shower, and bidet shower. We designed our products to be reach comfort, function, yet still elegant for your home.

Lead Time Production: 12 – 16 weeks

03. Drains

Built into the floor, for easy cleaning to your bathroom. Most of AER drain are equipped with anti-odor, anti-insect, and anti-animal system. Further, AER also provides with different materials such as brass and stainless steel 304, then various models from square, rectangle, round, and more. Lead Time Production: 12 – 16 weeks

04. Plumbing Fixtures

By using selected of finest ceramic materials, AER is able to establish high-end washbasin. We produce our products with consistent high temperature and microcrystalline nano glazed. To strengthen its quality, we glaze it with multi-layer to create strong and solid product. The result is not only created strong and smooth surface, but also delicately white and bright color. Lead Time Production: 12 – 16 weeks

05. Kitchen Sink

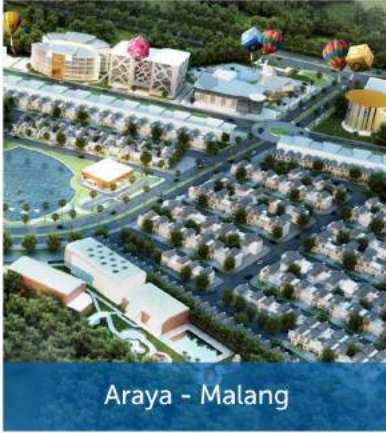

AER kitchen sink is equipped with high quality selection of material. We use high standard of 0.8 – 1.0 mm stainless steel 304 for corrosion resistance. Our design also prioritizes simple and easy to clean, still with modern look.
Lead Time Production: 12 – 16 weeks
